Make your training budget go further with Flexible Training Opportunities

Give your business a training boost with Flexible Training Opportunities from Skills Development Scotland.

The benefits of training are invaluable, for both businesses and employees – and we can now make it more affordable by meeting you halfway. We'll refund 50% of the cost of up to 10 training courses – worth up to £500 per course.

So if the training costs £1200, we will refund £500. If it costs £300, we will refund £150 – it effectively means you could double your training investment. Anyone from sole traders to businesses with fewer than 50 employees can apply for up to £5000 towards training costs. So find out more today.

“Flexible Training Opportunities have allowed us to equip our people with skills we couldn’t have afforded otherwise.”

Ronnie Young, Aquatron
